CIMAX Design

The background of the card shows a dark room with a blue velvet sofa, a teal vase with flowers, and several blue and white striped baskets.

ABOUT US

Cimax design is a social impact brand that manufactures sustainable wooden sunglasses and handwoven sisal bags that respects nature, support underprivileged communities and celebrate craftsmanship.

Our sunglasses are handcrafted from high quality, environmental sustainable materials, recycled waste wood with 100% polarized UV protected lenses.

The sisal bags are handmade from natural sisal fibre and woven in Kenya.

Embrace the beauty of our sustainable and ethical products, integrating Scandinavian style and traditional African craftsmanship.

All Cimax items are ethically hand-made in Africa by several craftsmen and women based in the slums in Kenya.

From every sale of Cimax items, we plant a tree, in reliable institutions such as schools and churches in Kenya.

Cimax is a zero-carbon footprint company.

The manufacturing process of the Cimax products is open and transparent – it is always clear who makes Cimax products, how and when the work is done.

We work with trusted carriers to ensure swift delivery. Your products are packed with care to prevent damage during transit.
